Product Design Lead

Over a decade in design, including product design roles at Tokopedia, Peeba, PINA and Bananas. I lead design reviews from the user's perspective, run retrospectives to understand where the team gets stuck and organize cross-team sharing sessions. These practices have helped designers work more independently and speak up about their decisions.

Design expertise

Product strategy
Problem framing, design strategy and PRDs

Research and UX
User interviews, usability testing and user flows

Interface design
Wireframes, visual design and design systems

Leadership and delivery

Design leadership
Mentoring, design reviews and stakeholder alignment

Cross-functional delivery
Working with business, engineering and QA

Quality and craft
Design audits, design QA and art direction

EXPERIENCE

Feb 2026 - Present
Jakarta

Indosat Ooredoo Hutchison - Product Design Consultant

Contract via Mitracom

- Own the design of desktop and mobile B2B dashboards for sales teams and customers, covering package management, usage tracking and product activation.
- Worked with other teams to make it easier for sales staff to change packages and add customers in bulk. Sales staff reported handling customer requests faster after the updates.

Nov 2024 - Aug 2025
Jakarta

Peeba - Product Design Lead

- Redesigned the entry page retailers reach through brand referral links. The page introduces Peeba, explains how it differs from other marketplaces and showcases participating brands.
- Used interviews and usability tests to inform the B2B retail app and dashboard. Worked with the CEO and stakeholders to define problems and document requirements.

Nov 2022 - Nov 2023
Jakarta

PINA - Product Design Lead

- Simplified investment onboarding, clarified UX copy and reduced competing calls to action, helping increase user registrations by 8-10% over two weeks.
- Built a shared design system with the head designer, led design reviews and worked with QA to keep screens and interactions consistent.

EXPERIENCE

Feb 2022 - Oct 2022
Jakarta

Bananas - Product Design Lead

- Shaped the design approach for customer and driver apps and internal dashboards, working across teams to address usability issues.
- Contributed to internal dashboard improvements that helped bring warehouse picking errors down to 2-3%, including mix-ups between similar products and sizes.

Nov 2020 - Nov 2021
BSD

Purwadhika - RnD UI/UX Manager

- Created and delivered UI/UX training for corporate clients. Mentored students, evaluated final projects and helped them prepare for design careers.

Jan 2017 - Sep 2020
Jakarta

Tokopedia - Principal Product Designer

- Led the redesign of the TopAds Seller Dashboard, using research to simplify advertising workflows and help increase the number of sellers purchasing ads by 15-18% in about three weeks.
- Designed Official Store shop experiences, contributing to an 11% increase in shop engagement, a 25% increase in banner CTR and a 3.6% increase in orders per session.
- Mentored senior and junior UI/UX designers, managed project timelines and kept stakeholders informed of progress.

Jul 2014 - Jan 2017
Jakarta

XM Gravity/Mirum Agency - Sr. Graphic Designer/Jr. Art Director

- Managed design projects for consumer brands, creating websites, campaign microsites and social media visuals with UX designers and campaign teams.

Jun 2012 - Mar 2014
Jakarta

Greenlab - Sr. Graphic Designer

- Created brand identities, logos and collateral for businesses and events, and guided junior designers through the design process.

Jun 2011 - Sep 2011
Jakarta

Avicom - Graphic Designer

- Developed ideas for client pitches and designed event logos, posters, billboards and supporting materials.
